Subject:

How to purchase CDendro & CooRecorder dendrochronology programs?

The programs CDendro & CooRecorder are used for dendrochronological dating of tree samples. These programs have been written by Lars-Åke Larsson at Cybis Elektronik & Data AB, Sweden.

Licenses giving you the right to use these programs are sold by MyCommerce/DigitalRiver via our web pages <https://www.cybis.se/forfun/dendro> and a link to a money processing site run by MyCommerce/Digital River.

You may purchase a school license for CDendro & CooRecorder according to the following proposal:

Proposal

SN	Description	Quantity	Price
1	School license for CDendro & CooRecorder for Windows with Reg. code	01 License	1360 US Dollars

Terms & Conditions

- You will get the software after payment.
- The price above is VAT (or GST) excluded. MyCommerce will add that tax according to the customer location.
- When ordering you can order according to your preferred currency.
- Software and Reg. code will be provided online.
- Please use credit card for payment.
- Purchase goes through cybis.se and myCommerce/DigitalRiver online procurement sites (<https://www.cybis.se/forfun/dendro/>)
- The CDendro & CooRecorder programs are supplied "as-is", i.e. no warranties!
- The "school license" with its programs is intended only for educational activities within your local organization – you need a separate individual license for each one of your researchers.
- You may individually enable your limited group classroom students to install the programs on their private computers - but you should especially see that this will never give a wider audience access to the programs or to your license registration key pair(s).
